OX ICO Escrow Arrangement

Escrow is a strong insurance that funds attracted via an ICO are correctly used according to the initial agreements. For this purpose, Polybius project will accept BTC via escrow.

Escrow Agents

OX has selected Fiat Lab as the escrow agents for the ICO:

Storage of ICO funds

BTC /ETH will be stored in multisig wallets.
BTC Address: 14T4agPbvHbuqzgFtEPD7Pw6ghy38VyjX1
ETH Address: 0x3d792deA0f4128C9ae77910EE8d271E337ED8613

Escrow agent will hold one of the two necessary keys for signing transactions and the remaining key will stay with the founders of OX. In order to successfully make transactions, two keys are required.

Release of ICO funds

After the ICO has ended at 12:00 PM UTC, July 31st, 2017, the attracted funds will be released if the total worth of collected donations is at least USD 1 500 000.

If the total worth of donations will be less than USD 1 500 000, the funds will be returned. For calculation purposes, all non-USD currencies will be converted into USD at the relevant exchange rates at the moment of their collection.
